It is important to let the vehicle coast along gradually slowing down to 32km/hr (20 mph). During this time the EGR, Purge and Fuel Trim diagnostics will be performed. Accelerate. Accelerate at 3/4 throttle until 88-96 km/hr (55-60mph).

reset codes need drive cycle for 2005 rendezvous | Buick ...

Drive the car normally. We do this first thing in the morning, after it has sat all night. We are close to the freeway, so, drive to the freeway. Once on the freeway we drive it at 55-60 mph, nice and steady for about 12 miles. We then turn around and drive on the freeway back to my shop. Usually this will complete one drive cycle.

with this 2004 buick rendezvous drive cycle guide, but end in the works in harmful downloads. Rather than enjoying a fine PDF behind a mug of coffee in the afternoon, then again they juggled similar to some harmful virus inside their computer. 2004 buick rendezvous drive cycle guide is straightforward in our digital library an online permission ...

Bing: 2004 Buick Rendezvous Drive Cycle

I am due for inspection and I flashed my car not too long ago which caused my monitors to not ready. I got 4 out of 7 and have done countless drive cycles to get them ready. I don't have any CEL or anything so it's just taking a long time, I guess. This happened to me last year and it took 2 months to get them to ready! I can't pass emissions without having 6 of the 7 "ready".
