## **20mph speed reduction initiative - CORE**

There were 450 20mph speed limits introduced between 1991 and 1999. In 1999, the law was changed by the Road Traffic Regulation Act (Amendment) Order 1999, which gave Highways Authorities more flexibility so they no longer had to apply for permission to introduce a zone. The updated legislation made two distinct types of 20mph speed limit possible:

## **A Guide to 20mph Limits - RoSPA**

“Default 20mph (with other speed limits being signed by exception) would be a much quicker and more cost-effective way of implementing this.” Birmingham City Council launched its Emergency Transport Plan last week (14 May 2020) outlining plans for a wide range of measures to support walking, cycling and public transport across the city, in ...

## **20's Plenty for Us**

Site specific 20mph limits with physical calming not only limit the reduction to a tiny proportion of roads but also endorse higher speeds on the rest of the network. Default 20mph limits may well only reduce average speeds by 1-2mph but there is a spread of -5mph to -6mph on faster roads to zero on roads where speeds are already below 20mph.

## **House of Commons - Transport, Local Government and the ...**
