### **Architect Handbook of Construction Detailing Second ...**

The very first acts of architecture may have been huge earthen mounds such as the prehistoric Silbury Hill in England. In the U.S. the largest is the Cahokia Monk's Mound in what is now Illinois. Building with earth is an ancient art, still used today in adobe construction, rammed earth, and compressed earth block houses.

Although architects are legally able to wet-stamp the plans, they often choose to outsource the structural plans to a structural engineer. Once the permit plans are complete, the general contractor and subcontractors can use them to do material take-offs and calculate construction costs in detail. The same set of plans will be submitted to the ...
