CiteSeerX - Document Details (Isaac Councill, Lee Giles, Pradeep Teregowda): Abstract: This study was conducted to investigate the blood serum and diet levels of copper, zinc and iron in Holstein dairy cattle kept under industrial farming in Isfahan province, Iran. A total of 240 blood serum samples and 24 diet samples were collected from industrial dairy cattle farms.

Assessment of serum symmetric dimethylarginine and ...

Among serum electrolytes assessed, hyponatremia or low serum sodium concentration was the most prevalent abnormality in diabetic patients. 2,13,16,21,24,26–31 The low serum concentration of sodium ion in diabetic patients may be due to osmotic diuresis induced hypovolemia. This means glucose is a substance with high osmotic activity, so its high concentration or hyperglycemia leads to increased serum osmolality that causes movement of water out of the cells and causes hypo-natremia by ...
