The CDC continues to advise wearing face masks to prevent the spread of COVID-19. Masks work by creating a physical barrier to the spread of virus-containing respiratory droplets.

The CDC Just Issued These New Face Mask Rules

A study of U.S. mask mandates found that mask wearing may have averted 230,000 to 450,000 coronavirus cases by late May. Another modeling study that estimated that, if 95% of the U.S. population wore masks, 18% fewer would die from the virus by Oct. 1 (including 125 fewer people in Colorado).

Slow the Spread, Get Behind the Mask | NC Child Care ...

When Wayne Oates wrote his book fourteen years ago, the literature on personality disorders was very scarce. Back then, Hervey Cheekley's 1941 book, THE MASK OF SANITY, had stood as the major source for years. Wayne communicates great concern for church people whose sanity is not an outward expression of an inward possession.

The mask helps prevent a person who is sick from spreading the virus to others. It helps keep respiratory droplets contained and from reaching other people. Caregivers of people with COVID-19. Those caring for someone who is sick with COVID-19 at home or in a non-healthcare setting may also wear a mask. However, the protective effects—how well the mask protects healthy people from breathing in the virus—are unknown.

The people behind the mask: celebrating health care heroes ...

Wearing a mask or cloth face covering can slow the spread of COVID-19 by limiting the release of virus into the air. It also reinforces physical distancing, and shows you care about the health of others. Don't wear your mask under your nose or just on your chin. A mask is only effective if it covers both ways you breathe.
