China clearly faces enormous challenges, unlike the United States a century ago. China's way to the top will thus be far more difficult and less predictable. And yet, paradoxically, China Goes Global provides simply too many statistics in favor of China's dominance to agree that it is only a partial power.

In China Goes Global, eminent China scholar David Shambaugh delivers the book many have been waiting for--a sweeping account of China's growing prominence on the international stage. Thirty years ago, China's role in global affairs beyond its immediate East Asian periphery was decidedly minor and it had little geostrategic power.

## **CORE**

China Goes Global: The Partial Power by David Shambaugh, Oxford University Press, 2013, 410 pp. No one appears to doubt that China is becoming an important international actor—its investments seem to trickle down to every corner of the world, and its outreach has already started to shift established frameworks of global affairs.

## **Book Review: China Goes Global: The Partial Power**

In Schism: China, America and the Fracturing of the Global Trading System, Paul Blustein dives below the foam and froth of the China-US bilateral rivalry to craft a critical understanding of China and its impact on trade and the international order. The book is useful reading for those seeking to understand the 'China Shock' and the ensuing trade conflict between China and the US, writes Mark S. Langevin , delivering a thoughtful call for more bilateral cooperation.
