Classical gems - University of Oxford

The Scot James Tassie (1735-1799), and his nephew William (1777-1860) developed methods for taking hard impressions from old gems, and also for casting new designs from carved wax in enamel, enabling a huge production of what are really imitation engraved gems. The fullest catalogue of his impressions ("Tassie gems") was published in 1791, with 15,800 items.
