### CiteSeerX — Concepts and issues in marine ecosystem management

Until a few days ago, I was convinced that the expeditionary advanced base operations concept was one of the dumbest ideas to come down the pike in a long time. This developing concept envisions the Marine Corps seizing and establishing a

persistent presence on key maritime terrain (islands and chokepoints). By emplacing long range weapons systems within these bases, marines would create an ...

Issues affecting our Oceans! Plastic Bags have been banned in some regions, see list under In Action tab, Cities and Towns page.. It is not very often everyone agrees on anything. Remarkably, the world's top scientists and marine researchers virtually all agree on the issues facing our oceans health, and the demands being placed on what is arguably life's greatest resource on the planet.

### **P9310 GPO WA Guts - Headquarters Marine Corps**

Ecosystem management means different things to different people, but the underlying concept is similar to that of the long-standing ethic of conservation. Current interest in marine ecosystem management stems from concerns about overexploitation of world fisheries and the perceived need for broader perspectives in fisheries management. A central scientific question is whether the effects of ...
