Lesson plans for Environment in Kindergarten

Kindergarten Library Lesson Plans. In kindergarten, kids spend time becoming familiar with the school library. Because they're so new to the environment, this is a great time to get kids excited about all the library has to offer and the stories they can explore as they begin to build a love for reading. At the same time, you can help their classroom teachers teach beginning reading skills and other language arts concepts.

Environment Lesson Plans For Kindergarten

The two major environments to illustrate to your students are those organisms that live on land and those that live in the marine environment. The marine environment can be divided into the shallow and deep salt water. The types of organisms that live here include small invertebrates like crabs, sea stars, and many other common seashore organisms.
