### **Inhabitat - Green Design, Innovation, Architecture, Green ...**

The IBM Tower in Kuala Lumpur was the first modern green skyscraper —although its architect, Ken Yeang, prefers to call it a “bioclimactic” building, because of the way its natural ventilation strategies make the building feel as if it were breathing. The design was the first to bring low-energy use to a high-density urban environment, reflecting Yeang’s idea that only the sustainable development of cities can accommodate the world’s population growth.
