CE520 Physical Hydrology

lished in 2002 by the Academic Press. Many
exercises, homework, and reading assignments are
selected from this book. It is recommended that you
own a copy. For some homework problems, the book
provides the final answers (on page 415). However,
your completed assignment must provide the entire
anal-ysis rather than a single number.

Hydrology is the study of the waters of the Earth: their occurrence, circulation, and distribution; their chemical and physical properties; and their reaction with the environment, including their relation to living things. Water in liquid and solid form covers most of the crust of the Earth. By a complex process powered by gravity and the action of solar energy, an endless exchange of water ...
