Internet addiction - Better Health

Internet addiction is when a person has a compulsive need to spend a great deal of time on the Internet, to the point where other areas of life (such as relationships, work or health) are allowed to suffer. The person becomes dependent on using the Internet and needs to spend more and more time online to achieve the same 'high'.

Internet addiction is a relatively new mental health concern, considering worldwide Internet use increased by 1,000% between the years 2000 and 2015. Evidence suggests Internet addiction is most prevalent among males, people with higher income, and those who exhibit certain psychosocial traits like neuroticism, impulsivity, and loneliness.
