Introduction Macroeconomics Williamson 4th Edition

Williamson's Macroeconomics uses a thoroughly modern approach by showing students how to build macro economic models from micro economic principles. This approach helps to make the text consistent with the way macroeconomic research is conducted today. The fourth edition weaves the recent events of the financial crisis into the material.

Williamson, Macroeconomics | Pearson

I could not see a bias to the text and it's material as some other reviews have stated, it seemed to hit Keynesian, Monetarism, and others. Generally there is far more material in the book than can be covered in a single course. The 4th edition at this point (mid 2011) is very up to date with examples and details from the real world.
