Shared Decision Making: Misconstrued and Misused - King ...

The principles of shared decision making are well documented but there is a lack of guidance about how to accomplish the approach in routine clinical practice. Our aim here is to translate existing conceptual descriptions into a three-step model that is practical, easy to remember, and can act as a guide to skill development. Achieving shared decision making depends on building a good ...

The Ethics of Shared Decision Making | Journal of Ethics ...

Typically, shared decision making, with or without a decision aid, involves patients in discussions about the options for treatment, the benefits and harms of each therapy, and the patient's preferences, and a collaborative decision about how to proceed is made. For single conditions, that requires some motivation and teachable skills.

The Impact of Decision Making Styles on Organizational ...

Shared decision making and the concept of equipoise: the competences of involving patients in healthcare choices. Br J Gen Pract. 2000; 50:892-899. Medline Google Scholar; 12. Towle A, Godolphin W. Framework for teaching and learning informed shared decision making. BMJ. 1999; 319:766-771. Crossref Medline Google Scholar; 13.

Shared decision making: what do clinicians need to know ...

Shared decision-making is widely considered good in and of itself [1]: healthcare professionals have a duty to inform people about the benefits and harms of proposed interventions. These duties are at the core of good clinical practice. Shared decision-making is defined by extending this duty to supporting people to arrive at informed preferences, eliciting and respecting those preferences by ...

Journal Shared Decision Making

In this analysis we challenge the conceptual honesty of 'shared decision making', arguing that, although it is held up as an ideal decision-making standard, it is used too often to describe (and justify) decision-making practices that are not shared at all. This is problematic because, if the legitimacy of a decision relies on it being 'shared', but it is not in fact shared, the ...
