Narcissism in the Workplace. Research indicates that individuals who would score highly on the Narcissistic Personality Inventory are more likely to engage in counterproductive work behavior that harms organizations or people, usually when the narcissistic leader's self-esteem is threatened. One of the problems is that an individual with NPD is not likely to take the Inventory and expose himself.

7 Ways to Cope With Narcissists at Work | Psychology Today

What you are witnessing are the early signs of narcissism in the workplace. The narcissist is building relationships with those who are useful to them, and bullying or manipulating those who are a threat to him. A person can be useful because they have information, or influence, or can get things done. The narcissist makes friends with these people, especially the boss, or even the boss's boss.
