PerTronix Ignition System Bundles | Increased Power ...

With the tremendous growth of the performance industry in the 90's, PerTronix began to shift our emphasis to our automotive product offering. This substantial growth, along with the addition of our Flame-Thrower® coil and spark plug wire product lines made it necessary for PerTronix to expand production and relocate to a brand new 22,000 square foot custom manufacturing facility in 1997.

Pertronix Application Guide - ox-on.nu

PerTronix Ignitor products are the best-selling electronic ignition conversions on the market. Many classic and vintage cars, trucks, boats, tractors, and other vehicles came with mechanical breaker points within the distributor to trigger the ignition spark. Breaker points have many limitations including continual wear that changes the dwell, bouncing at high RPM that causes misfires and the need for

constant maintenance.

Pertronix lobe sensing kits use unique lobe sensor technology, which uses the point cam to trigger, rather than a magnet sleeve or ring. The standard Hall Effect Ignitor module has the integrated circuit triggered by the cobalt magnets in the magnet sleeve or ring that is mounted on the shaft (usually on the cam lobes).
