Pipe Layout Helps For The

A fine little pipe fitter manual for your pocket. When it was first published, Pipe Layout Helps was smaller so that it would fit in one's wallet. It was hard on the eyes, especially old eyes, so we made it a tad bit larger. Still it's a fine thing to keep in your pocket as you move around a job site.

Pipe Layout Helps For The Pipefitter And Welder [PDF]

This tutorial demonstrates how to create a pipe network using the specialized layout tools. You create a pipe network by selecting start and end points for pipes and locations for structures. You can connect pipes to a structure or to another pipe. The types of pipes and structures you can create in the pipe network are specified by a parts list. A parts list is a subset of the entire pipe ...

Pipe Layout Helps : For the Pipefitter and Welder by C. L ...

If you have to make plumbing repairs around your home, it helps to understand your drain-waste-vent system (DWV). The fat pipes in your house make up the DWV, carrying wastewater to a city sewer line or your private sewer treatment facility (called a septic tank and field). The drainpipes collect the water from sinks, showers, [...]
