## Read Online Portfolio Analysis And Its Potential Application To

BCG matrix is a framework created by Boston Consulting Group to evaluate the strategic position of the business brand portfolio and its potential. It classifies business portfolio into four categories based on industry attractiveness (growth rate of that industry) and competitive position (relative market share). These two dimensions reveal likely profitability of the business portfolio in terms of cash needed to support that unit and cash generated by it.

### **Portfolio Analysis And Its Potential**

Designing the business portfolio involves analysing the company's current portfolio by a portfolio analysis, which is addressed here, before strategies for growth and downsizing can be developed. The Boston Growth-Share Matrix, developed by the Boston Consulting Group, is a very helpful tool for the portfolio analysis.
