From SAP Splash, you can access BUILD, a collaborative design tool (currently in beta) in the UXaaS portfolio that helps any non-technical user to quickly create prototypes without coding – even from whiteboard pictures or by simple drag-and-drop of UI elements.

### **User Experience as a Service: An Introduction | SAP Blogs**

Design provides users with more meaningful information and options that can help them master complexity. In the past, however, intelligent designs added complexity to the user experience with features such as relevance ratings, recommendation options, confidence ratings, and incompetent chat bots. This led to user frustration and mistrust.
