Fractions: Teacher's Manual

This activity from Texas Instruments teaches students how they can represent fractions in a more visual way. Using a grid-based system, the teacher uses a projector or interactive whiteboard to introduce a lesson that presents fractions (as well as fraction-based computations for more advanced students) as shapes. After the kids have seen the visual representation on the screen, they can make their own fraction pictures on the free printables that go with the activities.

4. Fraction Circle - We love using math circles in my class. It gets us up and moving, and has the students collaborating with their friends to complete the task on the card. We usually do the math circle the way it's intended, in a circle format, giving out cards to each of the students, but I put two fun twists on our Fraction Circle this year. I used cards as exit slips or transition cards ...

The Complete Fraction Island Teacher Desk Kit
