quality of evidence ...

NGC uses the internationally accepted Sheldon grading scale of 1 to 70, which was first used in the United States in the late 1940s. This scale was adopted by NGC when it began operations in 1987 and is considered to be the industry standard. Below are NGC's grading standards for each numeric grade as well as major strike types and designations. Certain coins have surface problems that preclude numeric grading by NGC.

Pay and the General Schedule (GS) • Go Government

GRADE is a systematic approach to rating the certainty of evidence in systematic reviews and other evidence syntheses.

Grading Guide | UpToDate

Grading systems differ depending on the type of cancer. In general, tumors are graded as 1, 2, 3, or 4, depending on the amount of abnormality. In Grade 1 tumors, the tumor cells and the organization of the tumor tissue appear close to normal. These tumors tend to grow and spread slowly.
