Look for mold mycotoxins in addition to heavy metals and pesticides. I believe toxins are the most significant and ignored public health issue of our lifetime. The animal husbandry industry spends billions – yes with a b – of dollars on reducing mycotoxins in livestock because of the impact it has on morbidity, fertility, and mortality. The same is true in humans!

### **Bing: The Mycotoxin Blue Book**

This is a collection of 15 scientific papers focused mostly on the issue of mycotoxins in food. If this is your area of interest I would recommend this book, highly recommend it actually. My principle interest is environmental exposure to mycotoxins and for this the book has rather limited use so I was disappointed on receiving it.
