Bing: Writing In The Sciences

The materials provided in this guide were developed for Colorado State University's upper-division writing in the sciences course. The course focused on analysis of current contexts where writing about the sciences for non-academic audiences appears and writing texts designed for those contexts.

Writing in the Sciences: Exploring Conventions of ...

A rhetorical, multi-disciplinary guide, Writing in the Sciences discusses the major genres of science writing including

research reports, grant proposals, conference presentations, and a variety of forms of public communication. Multiple samples from real research cases illustrate a range of scientific disciplines and audiences for scientific research along with the corresponding differences in focus, arrangement, style, and other rhetorical dimensions.

Writing in the Sciences | Stanford Online

The major difference between science writing and writing in other academic fields is the relative importance placed on certain stylistic elements. This handout details the most critical aspects of scientific writing and provides some strategies for evaluating and improving your scientific prose. UNC Writing Center Online Handout: Argument

Writing in Science - Hamilton College

We are pleased to announce that enrolment is open on our latest online course 'Research Writing in the Sciences'. Who is this course for? The course is designed for researchers and scientists in developing countries, particularly those working in a scientific field (life sciences / natural sciences / other related fields). It is suitable for early career researchers, or those with limited ...

Graduate Writing Center | Resources | Writing in the ...

Science writing is known for being concise and there is no room in any paper for words, phrases, and sentences that do not contribute anything significant. However, "conciseness" does not necessarily mean "brevity"; this is a common misunderstanding and a better word to have in mind than "brief" is "efficient".

Teaching Intermediate Composition: Writing in the Sciences ...

Writing in the sciences requires elements not necessarily needed when writing in the humanities. It requires data, evidence, facts, and precision, which in turn require intimate attention to detail. The goal of writing in the sciences is to clearly present what you have discovered or what you did.

Writing in the Social Sciences - Common Assignments ...

When writing in the social sciences, however, students must also be familiar with the goals of the discipline as these inform the discipline's writing expectations. According to Ragin (1994), the primary goal of social science research is "identifying

order in the complexity of social life” (para. 1).

Rhetoric and Composition/Writing in the Sciences ...

Writing in the sciences seeks to explain complex phenomena in clear, straightforward prose that minimizes authorial bias. It also includes elements of classical argument, since scientific papers are expected to contextualize, analyze, and interpret the information at hand.

Writing in the Life Sciences: A Critical Thinking Approach ...

Nearly every element of style that is accepted and encouraged in general academic writing is also considered good practice in scientific writing. The major difference between science writing and writing in other academic fields is the relative importance placed on certain stylistic elements.

Writing in the Sciences | Writing Advice

This course teaches scientists to become more effective writers, using practical examples and exercises. Topics include: principles of good writing, tricks for writing faster and with less anxiety, the format of a scientific manuscript, peer review, grant writing, ethical issues in scientific publication, and writing for general audiences.

Key Writing Resources - Writing in the Health Sciences: A ...

Writing in the Life Sciences is an innovative, process-based text that gives beginning writers the tools to write about science skillfully by taking a critical thinking approach. Laurence Greene emphasizes "writing as thinking" as he takes beginning writers through the important stages of planning, drafting, and revising their work.
